

Procedures for Filling Security Shifts

Only Supervisors and PICs are authorized to call subs and contract security for the purpose of filling open shifts.

1. If a security officer is scheduled and he/she does not report to work, please consult the Security Schedule, shared with you via Google Docs, and attempt to call the scheduled officer or substitute. If scheduled contract security does not report, call the company.
2. If the scheduled guard calls off or if you are unable to reach the scheduled guard, please attempt to fill the shift by making calls to the substitute list.
3. If no substitutes are available, you may call Elsie, the office manager for Titan Shield to request a guard. If you are unable to reach Elsie or if she has no guards available, you may then try TNT and lastly, DC Security.
4. Once you have found coverage, please send Amy Nelson an email to let her know how the vacancy was filled.
5. If you have exhausted all resources and still need security coverage, you may then call Amy Nelson at (719) 248-3196 or (719) 248-4912.

PCCLD Security Team
