

# PEST PREVENTION

Best practices to keep food fresh and prevent rodents and insects.

## STORAGE

After opening a package, unused portions need to be stored in hard plastic or glass containers with tight fitting lids.

## PLACEMENT

Keep food stored in high places. Food should never be stored on the floor or near the floor.

## DISPOSE

Dispose of food and remnants properly. Food and refuse should not be kept overnight on a desk or counter top.

## EXPIRATION

Throw out spoiled food in trash containers with a lid and regularly clean out fridges to deter pests.
