What book should not have been made into a movie and why?

Wicked...If you don't know the storyline this is your SPOILER ALERT. I love the musical, but the musical changed so many important aspects of the story that I was hoping the movie would bring back and from what I have seen they didn't. For instance, there IS NOT a love triangle between Fiyero, Elphaba, and Galinda. Fiyero's origin story is that he is a prince betrothed to another and he falls for Elphaba resulting in their affair. While the book can be erotic, it can also be romantic. My favorite quote from the book is "Yero my hero," said by Elphaba. Simple, but sweet! While I will be watching the movie when it comes out, I will forever be bitter about it.

What do you like best about working at the Library District?

I love the blend of community engagement and creative expression that my job entails. Being able to foster connections within our community while simultaneously exploring and sharing creativity is truly rewarding. It's more than a job; it's a passion that I am fortunate enough to call my profession.

What book do you really connect with, or what book are you reading right now?

"Frankenstein" by Mary Shelley holds a special place in my heart. This masterpiece not only captivates with its narrative but also serves as a poignant reminder of the importance of responsibility for our creations. Shelley's exploration of creation and consequence resonates deeply with me.

What is one of your favorite local Pueblo places to eat (we love to discover new places!)?

A gem I adore in Pueblo is Blue Ocean Sushi on the Riverwalk.

Who is one of your favorite bands or musical artists?

Machine Gun Kelly has recently captured my musical interest, thanks to a memorable birthday concert experience courtesy of my daughter. I loved his energy and presence on stage. While my musical tastes are eclectic, he stands out for his dynamic performances... and he is definitely "my type".

If a genie gave you a wish what would you wish for?

My wish would be to live on a vast, remote piece of land equipped with a cozy tiny home, a thriving garden, and ample space for numerous pets and animals. Most importantly, I'd wish for my children to live within a 30-minute radius of this sanctuary.

What is one of your favorite sweet treats?

Neapolitan Coconut Slice Candy Bars (a.k.a "Coconut Boats")! They're not just a treat; they're a cherished memory of time spent with my father. He would buy them for me during our errands together in my childhood.

What is one of your favorite hobbies?

Crocheting. My grandmother taught me to crochet when I was a child, and I still find it the most relaxing way to craft.

What book should *not* have been made into a movie and why?

While the adaptation of "1984" into a movie was an ambitious endeavor, I believe it's a book that should have remained on the page. The novel's profound and dreary narrative loses its depth and context on the screen. The movie struggles to capture the intricacies of Orwell's vision, making the already somber tale feel even more disconnected.

If you could wake up tomorrow with a brand new skill, what would it be?

I would love to acquire advanced computer programming skills, specifically to develop my own AI programs.

What is something most people don't know about you?

One summer, I had the unique opportunity to study dolphins at Cape Lookout National Seashore and volunteer for the park service. This was one of the best summers of my life!

What is one of your favorite hobbies?

Reading, cooking, seeing live music.

What book should not have been made into a movie and why?

I haven't seen it in years, but probably The Giver (2014) because it most definitely did not live up to how I envisioned that story in my head as a child! The movie also changes the story in ways that I thought took away from the ideas the book explores.

What do you like best about working at the Library District?

There are many wonderful qualities about working at the Library District, but my favorite is how we embrace our community. One and all are welcome into libraries, offering something for everyone. Every branch is unique in serving their nearby communities, while ready to welcome in all new patrons who visit us.

What book do you really connect with, or what book are you reading right now?

Clytemnestra by Constanza Casati is my current read at the moment. The Classics have my heart forever, so it is no surprise that many of my favorite reads concern the overlooked female characters that exist within those ancient texts. The authors can't always change their fate but these novels gift them a voice, complexities, and sympathy they weren't granted in the past.

If a genie gave you a wish what would you wish for?

Initially, I would feel pressure to wish for something vastly good like world peace or money. However, I have read too many fairy tales, legends, myths, and folklore to nonchalantly make wishes that huge. Genies are tricksters who rely on turning your words against you. So to combat it I would very plainly wish for a single fresh fig fruit to eat and be done with it.

What is one of your favorite sweet treats?

Mixed fruit tea with mini boba and lychee jelly

What is one of your favorite hobbies?

Besides reading, I love watching movies and original series.

What book should not have been made into a movie and why?

The 2010 movie of Percy Jackson & The Olympians: The Lightning Thief, due to the many egregious changes being done against the author's wishes. Thankfully, a proper series adaptation on Disney+ has been accomplished with the author's approval and hand in its creation.

If you could wake up tomorrow with a brand new skill, what would it be?

Aphotographic memory would be amazing and a lifesaver!

What is something most people don't know about you?

I didn't get my license till I was 19, so I missed out on driving in high school

Judoro's, my sister in laws food truck...restaurant coming soon!

What is one of your favorite bands or musical artists?

I don't read, just because I work in a library, crazzzzzy I know but it is true. So I'm not here for the books or the dvd's. I am here because this is where God wanted me to be and it is the perfect job for me and my personality!

What book do you really connect with, or what book are you reading right now? "Two Graves" by Preston and Child is a novel that I have recently found more relatable and connected too. The feeling of an

endless cat and mouse game, devastating grief, the idea of being shattered, and the longing for retribution. There's a tragic beauty in knowing that revenge always comes at a price, hence the two graves. One grave will always be for you.

What is one of your favorite local Pueblo places to eat (we love to discover new places!)? I don't actually have a favorite place; I really just enjoy food in general. If I like what a restaurant has to serve I'll visit frequently, if I don't then I won't

Who is one of your favorite bands or musical artists? Mariah Carey

If a genie gave you a wish what would you wish for? Nothing, wishes tend to operate as a give and take scenario. I would rather decline the offer or not use it all rather than take the chance of losing something in the process.

What is one of your favorite sweet treats? I enjoy many sweets, it's difficult to list just one.

What book should not have been made into a movie and why? Nothing really comes to mind, either it was that terrible or I haven't read and watched both versions of a title, yet.

One of the things that I love about working at this library district is the responsiveness to community needs and the role I get to play. It runs the gamut from helping to quickly supply families with internet access and devices during the pandemic to increasing accessibility to all of the amazing items in our Local History and Genealogy Department. If you could go back in time for one week, what time period would you go back to and why? If I could go back for one week in time I'd go back fifty years before West Africa was colonized. I would spend that week telling them all the horrors of The Great Maafa (Kiswahilli for Great Sadness, or Unspeakable Horror) and organizing them to spread the word across the continent and preparing them to fight the invaders. I'd stress the importance of presenting a united front so that they all could maintain their autonomy in the long run. I'd do all this knowing it would erase my own existence. That would be a small sacrifice to stop The Great Maafa from ever happening.
