MLE Live Monthly Webinar Series

Managing Fear and Anxiety in Children

Date: 8/13/2025

Time: 11:30PM to 12:30PM MST

Join this webinar as we discuss tactics and techniques to help children of all age groups deal with anxiety and fear. For parents, this webinar will provide context on the impact our own fears and anxieties can have on our children, and how to ensure we are supporting our children's unique anxieties and fears as separate from our own. Participants will feel better equipped to help their children cope with their anxieties through compassion, structure, and flexibility.

Our information, services and support programs are here for you with 24/7 access to help when you need it.
