LIBRARY JOURNAL

2016 STAR LIBRARY Award

Pueblo City-County Library District is one of only **260 libraries** in the United States recognized as a **2016 Star Library** based upon per capita output measures from data recently released by the Institute of Museum and Library Services.

★★★★

There are 9,082 libraries in the United States according to the American Library Association.

This puts PCCLD in the **TOP 3 %** of all libraries in the nation.

Library Journal believes the measures of **program attendance, circulation, digital use and visits** correlate closely with a library's 'service output.'

Put another way, **a library's level of positive engagement with the community it serves.** We believe these metrics show how well we are doing in reaching our goal to provide the best possible public library service for our community.
