Dear Maria,

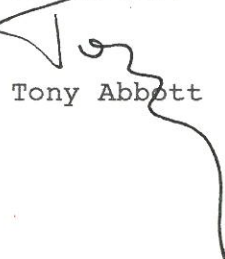

What can I say? My visit to your fabulous library, and the opportunity to chat with nearly 1500 Pueblo students, was an absolute inspiration and a treat. Thank you for everything you did to bring me to your lovely city, and for all the amazing things you do for your community.

The students were so smart and welcoming, enthusiastic, funny, and heartwarming. I felt we really connected, and that's because of you and your sense of responsibility to the kids of Pueblo. I thoroughly enjoyed our lunches together, a chance to get to chat informally. Please share my thanks with Janina and Thea, and all your other colleagues who helped organize the two days. They were fab, just like you.

Please do let me know if you have any questions about the attached expenses and receipts. I suppose they are always more than estimated, so let me know if you have a problem with any of the charges.

Talk to you soon, and thank you, again, for a memorable and fun time with you and the Pueblo children!

Sincerely,

Tony Abbott
