Robert Lawson, director of facilities, said part of the review also will look at potential funding sources to complete capi-

Lawson said such a plan is needed because of the aging buildings in the district (average is 56 years) and the growing

its own personnel to conduct a review of the facility needs, which would save the district \$44,000

## COOKING WITH STEAM

ABOVE: Harper Dilorio, 2 (right), makes her fossil sediment experiment as Nikki Caporicci, 3 (middle), and Zoe Fortner, 3, work on their experiments during the preschool STEAM (science, technology, engineering, art, math) program Tuesday at Giodone Library in Blende.

BELOW: Zoe eats her fossil sediment experiment made up of all edible material during the program.
