

May 22, 2025 | 📅 Maker Committee Meeting

Attendees: Catie Blickhahn Lorena Reagan

Notes

- Check out PW Makerspace
 - We thought it was really cool, and enjoyed the whimsy of the decor that made it feel really inspiring! There are lots of good supplies and equipment to use in there, and we were impressed. Good job, Cory!
- Website updates
 - Barkman still needs to get onto the website - Lorena mentioned that Giodone doesn't really have a dedicated space.
 - Should we direct to Makerspace@pueblolibrary.org to help people find what they need? Perhaps make an inquiry form that goes there or to all of us?
 - Since it was just the two of us, we discussed it but didn't make any serious decisions on the matter, but we thought it could be a good idea to have a better contact form.
- CAL Maker Report
 - Photos: <https://photos.app.goo.gl/A4NjaVieuTbCZmN56>
 - Catie Discussed it a bit, but will give a more through report at the next meeting.
- Maker Programs I can come offer at your branch (and bring all the supplies for)
 - Cold Forging
 - China Jewelry/Stained Glass Jewelry
 - Anything else you see us offer at our branch Makerspace that you'd like to see at yours!
- Resin Activity
 - We will do this one again next time as it was just Catie and Lorena at this one and Lorena will not be able to make the next one
